

We'd like to see you in STEM! We will be featuring photos of students telling us how they picture themselves in STEM. Submit a photo of yourself and tell us about a STEM career that you can imagine yourself in! Photos will be posted on social media and on our website! Also please take the time to complete the STEM Day STEM Role Models Scavenger Hunt for a Chance to Win a prize.

STEAM Day

STEM Role Models

SCAVENGER HUNT

Work with your team to complete the scavenger hunt below.

Where did Mae Jemison travel as an astronaut with NASA?	She is a brilliant 10-year-old that accidentally created a brand-new molecule in her science class. She proves that discovery can happen anywhere and with anyone.	What building block of the human body did Rosalind Franklin discover the structure of?
She is developed a method for cutting down on Earth's consumption of fossil fuels using a brand-new propulsion system.	What honor did Tu Youyou receive for her discovery of a treatment for malaria?	What discovery did Ms. Angela Zhang make that is changing the way scientists approach cancer treatment?
What satellite-based navigation system was Gladys West instrumental in developing?	What did Marc Hannah contribute to the world of film?	This man created the first locomotive engine.
What did Hedy Lamarr invent that is very popular today?	What contribution did Henry Ford make to STEM?	The Wright Brothers are famous for airplanes. But What did the Wright Brothers also invent something else that you use on a regular basis.
