

## **Atlanta Harvest Internship Program**

Our internship is for **3 months** and we offer **room and board** for the entire period. You will learn **fundamental practices and systems** as they pertain to autonomous lifestyle with a **Hebrew discipline**, and **commercial farming**. These include, but are not limited to:

- Many different aspects of **commercial farming** which include Seeding, Planting, Harvesting, Cultivation, Organic Pest Control, Crop Management, Greenhouse Management, Packaging for Market and Restaurants, Food Safety, Livestock Management, Erosion Control, Weed Management
- **Functional trades** for farm life such as Tree Felling, Plumbing, Electric, Carpentry, Masonry, Mechanics
- **Community life** which extends to interpersonal skills, time management, **Scriptural Application to farm life**, Roles and Responsibilities, Economic plans, Homeschooling, Community and self reliance, "off the plug living".
- This program has been **tested over several years** and is designed to give "boots to the ground" experience of what it takes to live and work on a **self-sustainable farm**. **Our graduates** have moved on to **start their own farms**, stayed on to become residents and brought the skills that they've learned here to improve their own homesteads. We pray that we can be of the same use to you!
- Our internship program is for all to partake in, but requires a certain level of **diligence, work ethic** and **team skills**. If you are willing, we can teach you... but we don't want to waste your time and don't want our time wasted. With that we welcome you to apply and wish you the best!
- An application will be sent to you upon completion of the questionnaire available in our website: <https://www.locallands.net/internship>
